

"STICKY FINGERS"

IPMS HORNCHURCH - NEWSLETTER

Dear Members

Firstly, many thanks to Bob and Dave Ryan for supplying the TV and video recorder for last months video night. Also thanks to them, Peter Quinn and John Bennett for the films shown. We'll have the same in the New Year.

Best of luck to everybody for tonight's competition of the season, with the subjects being Early jets for Aircraft and Armoured Personnel Carriers in Non-aircraft. If you were unable to complete anything for tonight maybe the idea of an end of year Competition for all those started but not finished may appeal to you.

Model Engineering Exhibition

I have received the appropriate forms from the Organiser, it is now up to us to decide if we want to take part, I must let him know by 22nd November.

Next Month

Being December some members have suggested a non-competitive exhibition of all things Luftwaffe.

As you know we are having Dr Ted's Spraying Surgery for Sick Airbrushes and/or operators, so bring along those gummed up airbrushes or gummed up brains and Doctor Ted should be able to sort you out.

In the past we have had non-alcoholic drinks and eats, shall we do the same this year ?

January 1997

I have taken some names for an evening out at the Headley Arms again for the latter part of January, if you are interested see me tonight.

Happy Muddling

ALAN
