Peter's "Prattlings"

Dave Ryan's New Contact Number

Dave has changed his phone number, it is now 0208 4916554. I've amended the address list and this is included later.

No Show Tonight

I shall not be making an appearance tonight as I am currently suffering from a small bout of gastric flu, which I picked up the other week, just after a brief trip to Lisbon in Portugal. Needless to say this has severely disrupted the production schedule for the newsletter. Don't worry there is no need to send flowers or anything as I am on the mend but it's a slow process. Hopefully Robin will be able to print this up in time for you.

"STICKY FINGERS"

IPMS HORNCHURCH - NEWSLETTER

Reports Required

I am now receiving a small trickle of articles, thanks to Ted Taylor for his build articles on some of the more recent models that have appeared on his display table, Peter Quinn for his trip to visit an aircraft carrier and unit history. Also thanks to Brian Lay for short article on casting, based on the face he used for his painting talk, John Bennett has written an article on his production of the now famous Southern Expo Model Show video, so for all you budding Dickey Attenboroughs or Steven Spielbergs lookout for this one. Malcolm Robinson has also sent in an article on car modelling, so hopefully these have whetted your appetite when these appear in future newsletters.

Peter

Ken's "Korner"

At the other side of the road where I live, there is a neighbour of ours who has a son who is mad about aircraft. This neighbour served in the Royal Navy in W.W.II as a Leading Hand on HMS Milne, a destroyer. He did several trips on the North Russian convoys in the very bad weather, so it's always nice to chat with him about his wartime experiences. HMS Milne survived the war and afterwards was sold to the Turkish Navy and subsequently was broken up for scrap.

He knows about this because he belongs to his ships company association who meet on frequent occasions. He also belongs to the North Russia Convoy Association.

This neighbours son lives near Ashford in Kent, he has informed his father that a local farmer, who farms near his house at Singleton Hill has recently started double ploughing a field on his Willow Tree Farm. The plough uprooted some pieces of aluminium, which turned out to be parts of an ex-W.W.II aircraft. The authorities were informed accordingly and the Willow Tree Farm site has now been investigated and it has been established that the aircraft was a Spitfire originally from RAF Hornchurch and the pilot was 18 years old.

At this stage I do not know how far the investigations have gone or how much of the aircraft has been recovered, but I asked the neighbour to ask his son to keep me up to date as events come to light. So as the saying goes "watch this space". I will hope more information is passed on to me. My neighbour knows I belong to a model club and the reason for this interest in this crash site, I will try and keep you up to date.

Ken
